

DRINKING WATER UPDATE

The boil water notice for the County will be lifted at 12 PM today. Make sure you empty your freezer ice bin and let your freezer ice fill using the safe water.

The **BOIL WATER NOTICE** for the City of Naples has **NOT BEEN** lifted. Towards the end of the week is the target date.

USE OF WATER UPDATE

If you are on the City of Naples sewer and water system you may resume normal use of the water for all of your needs.

However, County sewer and water customers are being asked to still conserve water due to water line breaks. Please take short showers, flush less, and one load of laundry per day is suggested. Please still continue to use water in moderation and thank you so much for your cooperation.
