

Schedule as of 5/20/2017: Recent changes in the irrigation controller architecture (at no cost to owners) now allow us to irrigate during periods of lesser resident activity. Systems were running from 10:00 PM to 8:00 AM, now they are limited to 1:00 AM to 6:00 AM. We're also now alternating days between the even and odd addresses, for the most part, and this is also in keeping with Collier County watering restrictions. The schedule follows. In the winter it's likely to be one hour earlier on standard time, to avoid reprogramming the controller for each time change. And on any given night, if hard rain fell earlier that day, sensors will prevent all irrigation that night.
